

GREENHOUSE FIND & MATCH GRADES 4 - 6

Everyday is Earth Day in the greenhouse. Can you find and match some of the great things we do everyday to make a difference? If you want to teach your family more about greenhouse growing, visit our website to learn more: pure-flavor.com/greenhousegrown

Vertical Growing

Ladybugs are a natural pest control in our greenhouses to keep our plants healthy.

These help us pollinate the flowers naturally to help our plants grow.

By regulating sunlight entering the greenhouse and insulating it with energy screens, we can maintain a stable climate.

Every drop of water that a plant does not absorb is recycled and used by other plants. This system is called...

We grow our plants in environmentally friendly mediums. Once the plants have finished growing, we compost them to return healthy nutrients to the earth.

We grow vertically produce more fruits & vegetables, in less space.

We provide heat to our plants using our hot water system. Our eco-friendly water boilers produce carbon dioxide to help our plants grow. The plants breathe in carbon dioxide and convert it to oxygen.

Recycled Growing Medium

Closed Loop Irrigation System

Energy Screens

Bumblebee Power

Climate Control & CO²

IPM Natural Pest Control
