COOKING

INGREDIENTS

- 1 Pure Flavor® Solara® Melon
- 1 cantaloupe melon
- 1 **small** watermelon

DIRECTIONS

- 1 Start by cutting a round slice from each melon, roughly $\frac{3}{4}$ " thick. Using mini bento or mini cookie cutters, press cutters into the melon slices for desired shape. Using a melon baller, scoop balls from the remaining melon and place all melon shapes in bowls until ready to use.
- 2 Thread the melon balls and melon shapes onto the skewers. Place on a platter, cover and store in the fridge until ready to serve.
